# Phi Sigma Kappa | Document and source guide

**Case ID:** case_iu_bloomington_phi_sigma_kappa_2026
**Verified through:** October 30, 2026
**University chapter status:** Cease and desist effective Oct. 21, 2026

The university imposed a cease-and-desist directive effective October 21, 2026, referencing hazing, endangering others, and OSFL social-events-policy noncompliance. University reporting described the matter as under investigation. The publicly available notices do not identify the underlying conduct or an associated criminal charge.

## Document scope and distinctions

Cease-and-desist is an interim chapter restriction, not a final university finding or a criminal adjudication. March 2025 prior discipline and a separately reported December 2024 incident are not treated as the October 2026 matter.

## Case chronology

**March–May 2025:** Earlier C&D and voluntary agreement history, a separate matter from the October 2026 inquiry.

**Oct. 21, 2026:** IU imposes Phi Sigma Kappa cease-and-desist for hazing, endangerment and OSFL social-events-policy noncompliance.

**Oct. 22, 2026:** IU spokesperson confirms university investigation remains ongoing; activity restrictions apply.

**Oct. 23, 2026:** WFIU independently reports the directive, identifies status as interim and describes broader campus context.
